### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Liam McDowell (Reg. No. 44,231) on 2/27/06.

The application has been amended as follows:

#### **In The Claims**

Claim 20 has been canceled.

#### **Reasons For The Above Change**

The cancellation of claim 20 has been made to overcome the indefinite problem in the claim, and also to avoid the improper dependent form for failing to limit the subject matter of the previous claim (independent claim 21).

### **REASONS FOR ALLOWANCE**

2. Claims 1-18 and 21-25 are allowed.

Claims 1, 21 and 22 are allowed because the prior art of record fails to disclose or suggest a driving circuit which includes a first amplifier circuit, a second amplifier circuit, and an input control circuit with the recited connections and operations set forth therein. In particular, the prior art fails to disclose or suggest that the input control circuit performing control so that during the first period, one of the first voltage and the second voltage, is supplied in common to

the input terminals of the first amplifier circuit and the second amplifier circuit, or the first and second voltages are respectively supplied to the input terminals of the first amplifier circuit and the input terminal of the second amplifier circuit; and during the second period, the target voltage is supplied in common to the input terminals of the input terminals of the first amplifier circuit and the second amplifier circuit.

Claims 2-18, and 23-24 are allowed because they depend on claim 1.

Claims 25 are allowed because the prior art of record fails to disclose or suggest a driving circuit which includes an amplifier circuit and an input control circuit with the recited connections and operations set forth therein. In particularly, the prior art of record fails to disclose or suggest that the amplifier circuit includes a first amplifier circuit and a second amplifier circuit, and wherein the input control circuit for performing control so that a predetermined constant voltage and the signal voltage are switched for supply to an input of the amplifier circuit.
